Vincent L. Briccetti
United States District Judge

Judge Brice

9/25/20

I was sentenced before you on 9/2/20. I'm sure what I can do about my lawyer not telling everything I needed to know about my case.

I've been in Valhalla and Orange County jails and that don't have those j's set for federal inmates

so I had to rely on what my lawyer John S.

Wallenstein told me. I felt it's harsh consequences

I've been in considering I haven't been able to take programs that are at max 3 mile. I was

told by my lawyer I would not be a career offender

that the law was on my side, I have the letter which he stated that in. I never knew the

DA had wrote a report to you on 9/11/20 came to Court on 9/2/20 I never had a copy of it to

read myself. My lawyer skim through it for

5 min before court. I asked for my sentencing

transcript and was told he can't get it I have

to order it. I have no money how am I to do

that. I feel I didn't have a good lawyer

and was wondering what can I do to make

a complaint about it. I was also told by him

if I was a career offender he would

appeal or if I got more than 60 months he would

appeal but when I got sentence he tell my family

to tell me not to appeal. I feel I was miss lead

by this man and he never did nothing to help me.

Even in court the DA had alot to say about

me he never once spoke for me. never told

how I worked with the kids at the M.U.P

Camp in white Plains nor how I was doing

security at Clubs in Port Chester & Stamford

et. all of this he told him. By me not being able to

study my case or have knowledge on Federal law I

feel I was treated unfair, not by you I am okay with

the fine I was sentence to. I now understand what the law is but my lawyer didn't do as he told me.

9/26/20 - I got a letter today from my lawyer in response to the letter I sent him about me not being happy with how he handled my case. He told me to go to the office of the District Attorney and ask him to do so and if he doesn't want to, I can go to the District Attorney myself to file a Notice of Appeal. I never asked him to do so and I don't want to. I told him in my letter I want nothing to do with him and this is what he does. I wrote clear as day "If I was to want an Appeal how could I win with a lawyer like him," and told him not to contact me and I want to contact him. Now he tells me he can get my sentencing transcript free cause he filed for an Appeal. Again I don't want to Appeal what you did. My complaint is about the lawyer who said by law I was not a career offender but as it was told in court by law I am. How can I have had a lawyer who doesn't know the law? Also who now file for Appeals without me wanting one. I just want to know is there a way I can meet or know that John S. Wallenstein is keeping his clients in the wrong direction. Remember June of 2019 he came to see me in Valhalla and bring a gun specialist to see me and I didn't even have a gun charge. Thank you for your time in/on this problem I have.

Thank you,

Frank Maxwell
